## CONTENTS

### **Effect of UV laser texturization on hydrophobic and anti-icing properties of waterborne polyurethane nanocomposite coatings**

B. Przybyszewski, R. Kozera, K. Ziętkowska, A. Labeda, C.W. Karl, M. Pilz, A. Boczkowska ..... 213

### **Submicrometric glassy carbon as filler for HDPE-based conductive polymer composites for ESD and EMI applications**

P. Olesik, T. Pawlik, B. Toroń, P. Szperlich, M. Godzierz, K. Olszowska, O. Maruzhenko, J. Myalski ..... 220

### **Possibility of using expanded perlite as texturising aggregate in lightweight polymer plasters – impact on thermal and mechanical properties of coating**

I. Marchewka, E. Downar-Zapolska, W. Pichór ..... 226

### **The structure and mechanical properties of PBS, PCL and PBAT modified with Laponite**

R. Malinowski, V. Krasinskyi, O. Grytsenko, V. Moravskyi, D. Kaczor, M. Stepczyńska, K. Moraczewski ..... 231

### **A preliminary assessment on the preparation of spirulina/PE blends by compression molding**

S. Díaz, F. Romero, L. Suárez, Z. Ortega ..... 238

### **Development of a method for producing composite parts of the TRIGGO electric car based on A.S.SET epoxy resin powder – feasibility study**

A. Boczkowska, Ł. Stachowicz, R. Budweil ..... 246

### **Synergistic enhancement of CFRPs: combining CNT-doped thermoplastic veils and SWCNT-modified thermoplastic matrix**

S. Demski, K. Dydek, P. Durałek, P. Latko-Durałek, A. Wąsowska, R. Kozera, P. Mądry, A. Boczkowska

R. Stanik, M. Gude ..... 259
